Employee Observation Comments

Department	Comment Text
Air Service Development	A burned-out light near an employee entrance reduced visibility during the day. The issue was reported and repaired.
Air Service Development	Better communication.
Air Service Development	Continuing to make sure new employees understand emergency procedures and expectations.
Air Service Development	Department specific safety tips would help.
Air Service Development	I like that this survey gives employees an opportunity to provide feedback.
Air Service Development	I would like to see this survey conducted every year.
Air Service Development	Inspect exterior lighting more frequently.
Air Service Development	Lighting around employee parking and entrances should always be maintained.
Air Service Development	Offer a short refresher a few months after orientation.
Air Service Development	Parking lot lighting is limited before sunrise.
Air Service Development	Safety matters in offices too.
Air Service Development	Thank you for making safety a priority across all departments.
Air Service Development	The onboarding experience has been positive, and I appreciate the support from all departments.
Civil Rights and Compliance	I haven't reported anything myself, so I'm not sure how the follow-up process works.
